What is this product?

Type: Shares of a Sub-Fund of Fund Channel Investment Partners, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: To achieve a return in excess of investment grade bond markets of emerging countries by investing primarily in emerging market investment grade USD denominated debt securities. The sub-fund will mainly invest in investment grade USD denominated debt securities issued or guaranteed by emerging market governments or their agencies and by companies that are domiciled, or carrying out the main part of their economic activity, in an emerging market country. Debt securities will be rated investment grade at the time of purchase. However, the sub-fund may hold below investment grade securities or unrated securities up to 10% as a result of credit downgrades, rating removal or default. The sub-fund may hold maximum 5% of equity as a result of conversions or restructuring of its debt holdings. The sub-fund may invest up to 10% of its assets in units/shares of UCITS and up to 10% of its asset in Cocos and up to 5% in other Convertible Bonds. The sub-fund may use derivatives for hedging purposes only. The benchmark is composed for 50% of J.P. Morgan Emerging Markets Bond Index Global Diversified Investment Grade (Total Return Gross) and for 50% of J.P. Morgan Corporate Emerging Markets Bond Index Broad Diversified Investment Grade (Total Return Gross). The sub-fund is actively managed by reference to and seeks to outperform the benchmark. The sub-fund is mainly exposed to the issuers of the benchmark, however, the management of the sub-fund is discretionary, and will be exposed to issuers not included in the benchmark. The sub-fund monitors risk exposure in relation to the benchmark however the extent of deviation from the benchmark is expected to be significant. The investment manager uses a globally integrated research driven investment process that focuses on analysing fundamental, quantitative and technical factors across countries, sectors and issuers. The investment process combines a top-down decision making including country and sector allocation with bottom-up security selection across the emerging markets investment grade bond universe. At least 51% of assets are invested in issuers with positive environmental and/or social characteristics that follow good governance practices as measured through the Investment Manager's proprietary ESG scoring methodology and/or third party data. The Investment Manager evaluates and applies values and norms based screening to implement exclusions. To support this screening, it relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. The list of screens applied that may result in exclusions can be found on the Investment Manager's Website at: <https://am.jpmorgan.com/lu/en/asset-management/adv/investment-themes/sustainable-investing/understanding-SFDR/#>. The sub-fund systematically includes ESG analysis in its investment decisions on at least 75% of non-investment grade and emerging market sovereign and 90% of investment grade securities purchased.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Fund Channel Investment Partners prospectus.

Distribution Policy: As this is a non-distributing share class, investment income is reinvested.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Luxembourg S.A. at 5, allée Scheffer 2520 Luxembourg, Luxembourg. The Net Asset Value of the Sub-Fund is available on www.amundi.lu

Depository: Societe Generale Luxembourg.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Fund Channel Investment Partners prospectus.

What happens if Amundi Luxembourg S.A. is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of Fund Channel Investment Partners. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.
