What is this product?

Type: Shares of a Sub-Fund of Fund Channel Investment Partners, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The sub-fund's investment objective is to deliver a higher total return (the combination of capital growth and income) than its benchmark (MSCI ACWI Net Return).

Investments: The sub-fund invests at least 80% of its net asset in the equity or Equity-linked instruments (including up to 50% in ADR/GDR of companies across any sector and market capitalisation that are domiciled in any country, including up to 49% in emerging markets).

The sub-fund may use derivatives for hedging and efficient portfolio management.

Benchmark MSCI ACWI Net Return. The sub-fund is actively managed. The sub-fund may use the benchmark a posteriori as an indicator for assessing the sub-fund's performance. There are no constraints relative to any such benchmark restraining portfolio construction.

Management Process: The sub-fund employs a "bottom-up" stock picking approach, driven by the fundamental analysis of individual companies. Dividend yield is not the primary consideration for stock selection. The investment manager aims to create a diversified portfolio with exposure to a broad range of countries and sectors. Stocks with different drivers of dividend growth are selected to construct a portfolio that has the potential to cope in a variety of market conditions.

The sub-fund may use derivatives for hedging and efficient portfolio management.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment and to receive income over the recommended holding period with the ability to bear losses up to the amount invested.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Fund Channel Investment Partners prospectus.

Distribution Policy: As this is a non-distributing share class, investment income is reinvested.
