Article 8 ■

## Objective and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. To achieve long-term capital growth.

The Sub-Fund invests at least 75% of net assets in equities of companies that are headquartered and listed in the Eurozone, with a minimum of 51% of net assets in equities which have a market capitalisation below the maximum market capitalisation of the benchmark. Investments may be extended to other European Union member states, depending on the expectations regarding which countries may subsequently become part of the Eurozone.

The Sub-Fund makes use of derivatives to reduce various risks and for efficient portfolio management.

**Benchmark :** The Sub-Fund is actively managed and seeks to outperform the MSCI EMU Small Cap Index. The Sub-Fund is mainly exposed to the issuers of the benchmark, however, the management of the Sub-Fund is discretionary, and will invest in issuers not included in the benchmark. The Sub-Fund monitors risk exposure in relation to the benchmark however the extent of deviation from the Benchmark is expected to be material. Further, the Sub-Fund has designated the benchmark as a reference benchmark for the purpose of the Disclosure Regulation. The Benchmark is a broad market index, which does not assess or include constituents according to environmental characteristics, and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund.

**Management Process :** The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The investment team selects equities based on fundamental analysis (bottom-up), constructing a concentrated portfolio that consists of those securities about which the investment team has conviction. The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the Benchmark.

### Risk Indicator (Source: Fund Admin)

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. Additional risks: Market liquidity risk could amplify the variation of product performances. This product does not include any protection from future market performance so you could lose some or all of your investment. Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Amundi Funds prospectus.

**SRI Terminology**

**Socially Responsible Investment (SRI)**

The SRI expresses sustainable development objectives in investment decisions by adding Environmental, Social and Governance (ESG) criteria in addition to the traditional financial criteria.

SRI thus aims to balance economic performance and social and environmental impact by financing companies and public entities which contribute to sustainable development whatever their business sector. By influencing the governance and behaviour of stakeholders, SRI promotes a responsible economy.

**AVERAGE ESG RATING (source : Amundi)**

Environmental, social and governance rating

**ESG criteria**

The criteria are extra-financial criteria used to assess the Environmental, Social and Governance practices of companies, states or local authorities:

“E” for Environment (energy and gas consumption levels, water and waste management, etc.).

“S” for Social/Society (respect for human rights, health and safety in the workplace, etc.).

“G” for Governance (independence of board of directors, respect for shareholders' rights, etc.)

<sup>1</sup> Outstanding securities in terms of ESG criteria excluding cash assets.

<sup>2</sup> The investment universe is defined by the fund's reference indicator. If the fund does not have an indicator, it is defined by type of security, geographic zone and investment themes and business sectors.

For more information, we invite you to consult the fund's transparency charter, which is available on the management company's website and on the AFG website <http://www.afg.asso.fr>.

EQUITY ■

Focus on Environmental, Social and Governance key performance indicators

In addition to the overall ESG assessment of the portfolio and the E, S and G dimensions, the manager uses impact indicators to assess the ESG quality of his portfolio. Four representative indicators of Environment, Social, Human Rights and Governance have been identified. The manager's minimum objective is to deliver a quality score higher than that of the index on at least two of the indicators.

For these 4 indicators, the total for the portfolio/investment universe is equal to the companies' average for these indicators adjusted for their weight in the portfolio/investment universe.

Environment<sup>1</sup>

Carbon Intensity: carbon emissions per euro million of sales

Total carbon intensity (Portfolio/Benchmark) : 155 / 224

This indicator measures the average emissions in metric tonnes of carbon equivalent per unit of a company's revenue (€ million of sales). This is an indicator of the carbon intensity of the value chain of the companies in the portfolio.

Sources and definitions

**1. Environmental indicator/Climate indicator:** Carbon intensity (in metric tons of CO2 per million of revenue). This data is provided by Trucost, This corresponds to companies' annual greenhouse gas emissions expressed in metric tons of carbon dioxide equivalent. (CO2e). It covers the six greenhouse gases identified in the Kyoto Protocol with emissions converted into global warming potential (GWP) in CO2 equivalent.

Definition of scopes:

- Scope 1: All direct emissions from sources that are owned or controlled by a company.
- Scope 2: All indirect emissions arising from the purchase or production of electricity, steam or heat.
- Scope 3: All other indirect emissions, upstream and downstream of the value chain. For reasons of data robustness, Amundi has chosen to use emissions from activities upstream of Scope 3
- Source: Trucost EEI-O model (input/output model extended to the Trucost environment).

**2. Management diversity.** Working conditions score: indicator that takes into consideration the companies investing in the development of their human capital (training, career management) and providing satisfactory working conditions, particularly in terms of health and safety. Data source : Refinitiv.

**3. Human Rights Compliance Indicator.** percentage of companies with policies that exclude forced or obligatory child labor or that guarantee freedom of association and which are applied universally regardless of local laws. This indicator enables better assessment of fundamental human rights issues. Data provider: Refinitiv

**4. Board independence.** average percentage of independent directors on the Board of Directors. Data provider: Refinitiv

For these 4 indicators, the total for the portfolio/investment universe is equal to the companies' average for these indicators adjusted for their weight in the portfolio/investment universe.
