Your specialist in European private markets and real assets

Dominique Carrel-Billiard,
Global Head of
Amundi Real Assets

“Amundi Real Assets strives to provide responsible and innovative investment solutions, purely based on private markets and real assets, to both individual and institutional investors. In a world of low interest rates, high valuations, and potentially rampant inflation, getting access to the right portfolios of real estate, private debt, private equity and infrastructure assets plays an increasingly crucial role for investors as they look for solutions to meet their long term liabilities, secure their retirement plans and fulfil their ESG and impact objectives.”

Rooted in Europe’s leading asset manager and in Europe’s most renowned banking networks¹, Amundi Real Assets benefits from a unique environment to originate and finance investment opportunities in the universe of private markets and real assets. This ecosystem generates investment insights to assess each individual transaction and aims to build resilient portfolios.

Our value added to investors also results from our ability to structure the right vehicles to ease access to these opportunities. To that end, we offer a wide variety of funds, separate accounts, club deals, co-investments and multimangers’ structures. For retail investors, putting together with the vehicles the distribution support that is required to make real assets clear and understandable is our differentiating competence making private markets truly accessible to individuals.

Leveraging on these distinctive skills, we have built an integrated real assets platform comprised of 250 experienced professionals, based in 7 offices in Europe and headquartered in Paris, that manages €62.2 billion of AuM² and 1,832 assets in 16 countries. This platform boasts leading market positions such as n°8 in the world for office real estate³, one of Europe’s largest private markets multimangers’ platform, n°10 in Europe⁴ with €8.5bn deployed in private debt, the largest Social Impact Investing fund in France, and a growing infrastructure franchise.

Amundi Real Assets is committed to becoming a reference in Europe capable of enabling investors to contribute to funding the real economy.”
