The board of directors of the Company (the "**Board**") has decided to change the index of the Sub-Fund (the "**Index**") and to update accordingly the denomination of the Sub-Fund, the SFDR Classification of the Sub-Fund, as detailed below (the "**Changes**"). The Changes will become effective as of **17 July 2026** (the "**Effective Date**") and reflected in the next Prospectus.

The Changes will provide the Shareholders with an exposure to the New Index that is representative of the performance of small-, mid- and large-cap companies active in the memory chip industry, across developed and emerging countries.

A full description of the New Index, its construction methodology and information on the composition and respective weightings of the New Index components are available on the New Index provider's website at www.solactive.com.

- **Shareholders who do not agree with the terms and conditions of the Changes have the right to redeem their shares at any time free of charges (excluding fees to cover divestment fees) within 30 calendar days from the date of this notice. Nevertheless, placing an order on the secondary market will trigger costs over which the Management Company has no influence.**
- **Please note that Shares that were purchased on the secondary market cannot generally be sold back directly to the Company. As a result, investors operating on the secondary market may incur brokerage and/or transaction fees on their transactions. These investors will also trade at a price that reflects the existence of a bid-ask spread. Such investors are invited to contact their usual broker for further information on the brokerage fees that may apply to them and the bid-ask spreads they are likely to incur.**
- **In case where the Shareholders agree with these changes, no action is required from the Shareholders.**

Following the implementation of the Changes, the Prospectus and the Key Information Document of the Sub-Fund will be amended accordingly.
