AMUNDI FUND SOLUTIONS ICAV - PLANET ESG DYNAMIC - I2 USD Hgd (C)
A sub-fund of AMUNDI FUND SOLUTIONS ICAV

ISIN code: (A) IE000HGCEYY8

This ICAV has appointed Amundi Ireland Limited, an entity part of Amundi Group, as its Management Company

Objectives and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

The Sub-Fund seeks to achieve capital appreciation and income over the recommended holding period.

The Sub-Fund seeks to achieve its investment objective through investment in equities, equity related securities, bonds (government or corporate, fixed or floating rate which may be rated above or below investment grade), convertible bonds which shall not embed derivatives and/or leverage (the Sub-Fund shall not however invest in contingent convertible securities) and commodities (indirectly through investment in exchange traded commodities or exchange traded funds) ("Asset Classes").

Investment in the Asset Classes will mainly be achieved through investment in exchange traded funds and other funds such as, but not limited to, investment companies, investment limited partnerships and unit trusts ("Underlying Funds"). There is no limit on the number of Underlying Funds in which the Sub-Fund may invest and the Sub-Fund may invest up to 100% of its Net Asset Value ("NAV") in exchange traded funds and other Underlying Funds.

The Sub-Fund will not be confined to any geographical region or industry when making its investments and may invest up to 30% of its NAV in emerging markets.

In normal market conditions, the Sub-Fund will invest up to 90% of its NAV in equities and equity related securities up to 30% in below investment grade bonds, up to 10 % in convertible bonds and up to 20% of its NAV in commodities.

While the Sub-Fund will typically gain exposure to currencies via currency forwards it may also invest directly in currencies of developed and emerging markets countries.

The Sub-Fund may also hold cash and instruments that may be readily converted to cash (including cash deposits, European treasury bills and government bonds, short-term corporate bonds, commercial paper, short term money market instruments and certificates of deposit.

The Sub-Fund makes use of derivatives for investment and efficient portfolio management purposes.

Benchmark : The Sub-Fund is actively managed by reference to 75% MSCI All Countries World Index Net Total Return Index / 25% Bloomberg Euro Aggregate Bond Total Return Index.

Management Process : The Sub-Fund integrates sustainability risks and sustainability factors in its investment process as outlined in the section "Overview of Responsible Investment Policy" and "Sustainable Investment Risk" in the Prospectus (the "Benchmark").

The Sub-Fund seeks to achieve an ESG rating of its portfolio greater than that of the Sub-Fund's investment universe. For the purpose of this measurement, the investment universe being defined as the Benchmark.

The management process involves an investment allocation by the Investment Manager across four principal pillars of investment strategy based on the objective and policies of the Sub-Fund in order to select the Sub-Fund's investments. These comprise alpha (active return) generating macro, macro hedging strategy, satellite, and selection strategies. These strategies involve a top-down analysis of macroeconomic development, the use of macro hedging to identify investments that protect the Sub-Fund's portfolio from tail-risk events, the identification of lowly correlated, relative value trade ideas across the Asset Classes and the identification and selection of Underlying Funds as a cost efficient alternative to direct investment.

This is a non-distributing share class. Investment income is re-invested.

The minimum recommended holding period is 6 years.

Investors may sell on demand on any business day in Ireland.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in equity markets.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your investment does not benefit from any guarantee or protection.

For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the share class.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.
- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.

- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Capital risk linked to the dividend distribution policy: fixed dividend distributions may be paid out of capital if investment income is less than the fixed distribution amount.
- Hedging risk : The currency hedging may be imperfect and generate a difference between the performance of the Sub-Fund and the share class you are invested in.
- Derivatives risk : Derivatives create leverage in the Sub-Fund and may cause movements in the value of the underlying investments to amplify gains or losses to the Sub-Fund.
- Emerging Markets risk : Some of the countries invested in may carry higher political, legal, economic and liquidity risks than investments in more developed countries.

The use of complex products such as financial derivative instruments might increase market movements in your portfolio.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
