Lyxor / Tiedemann Arbitrage Strategy Fund - Class I GBP (the "Fund")

ISIN: IE00B9CB6D86 - A sub-fund of the investment company named Lyxor Newcits IRL PLC (the "Company") domiciled in Ireland.

Managed by Amundi Asset Management, a subsidiary of Amundi Group

Objectives and investment policy

The Fund is an active UCITS and is not managed in reference to a benchmark.

The objective of the Fund is to get exposure to a proprietary discretionary investment strategy designed by Tiedemann that primarily consists of investments in securities of issuers that are or may become subject to corporate events (such as a tender offer, merger, liquidation, recapitalization or bankruptcy).

The Fund seeks to achieve its objective primarily through the use of securities such as debt and equity securities and financial derivatives contracts, including contracts for difference and total return swaps, the latter providing exposure to all or a portion of the strategy implemented by Tiedemann.

The share currency is the Sterling Pound (GBP).

- **Invested financial instruments:** Financial Derivative Instruments, international equities, fixed or variable debt instruments, other financial instruments such as cash instruments or bank deposits.
- **Dividend policy:** all the Fund's amounts available for distribution (if any) shall not be distributed to Shareholders, but reinvested.
- **Net Asset Value:** Each Business Day or such other day (or days) as may be determined by the Directors and notified to Shareholders in advance provided that there shall be at least one Valuation Day every fortnight.
- **Redemptions:** 10 a.m. Irish Time, on the relevant Valuation Day or such other time as the Directors may determine and notify in advance to Shareholders.

Risk and reward profile

The risk-return category shown above is based on the maximum level of risk that the Fund manager may take while adhering to the Fund's strategy, as well as on its performance, where applicable. This risk estimate may therefore not represent a reliable indicator of future risk, and may be subject to change over time. The lowest category does not mean risk free investment.

The Fund has been classified within category 4. Category 4 indicates that under normal market conditions a moderate loss of capital is possible ; the value of your investment may have moderate and low daily upside or downside variation.

Main risks not covered by the above indicator which could lead to a decrease in the net asset value of the Fund and which the Fund is authorized to disclose in this document (for more details about risks, please refer to the Risk Profile section of the prospectus):

- **Counterparty risk:** The Fund is exposed to the risk that any counterparty with which it has concluded an agreement or a transaction could become insolvent or otherwise default and more particularly when it has concluded financial derivative instruments over-the-counter or securities lending transactions. If such an event occurs, the net asset value of the Fund may decrease significantly. According to the regulation applicable to the Fund, such risk cannot exceed 10% of the Fund's total assets per counterparty.
- **Risk of Financial derivative Instruments:** The Fund invests in financial derivative instruments. These financial derivative instruments can induce different types of risks such as (but not limited to) leverage risk, high volatility risk, valuation risk or liquidity risk. If this risk occurs, the net asset value of the Fund may decrease significantly.
- **Operational risk:** In the event of an operational failure of the management company or one of its representatives, investors could experience loss, delay in processing subscriptions, conversions, redemptions orders or other type of disruptions.
- **Liquidity risk:** In certain circumstances, for example in case of low trading volume on financial markets, any buy or sale trade on financial instruments held by the Fund or having an impact on its value may lead to important variations of their valuations. In such circumstances, the net asset value of the Fund could be negatively affected.
- **Credit risk:** The Fund is subject to the risk that any issuer could become insolvent or to otherwise event having an impact on the credit quality of this issuer. The consequence of this risk or event may result in a decrease of the net asset value of the Fund.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
