The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Lyxor SEB Impact Fund - DF-USD (the "Fund")

ISIN: IE00BDR0SH62 - A sub-fund of the investment company named Lyxor SEB Umbrella PLC (the "Company") domiciled in Ireland.
Managed by Amundi Asset Management, a subsidiary of Amundi Group

Objectives and investment policy

The Fund is an active UCITS and is not managed in reference to a benchmark.

The investment objective of the Fund is to seek capital appreciation over the medium to long term.

The Fund seeks to achieve its investment objective by allocating its assets across various long only equity investment strategies which are proprietary to each Sub-Investment Manager and/or the Manager (the "Equity Investment Strategies"). Each of the Equity Investment Strategies will be implemented by a Sub-Investment Manager and/or the Manager with respect to a Trading Portfolio.

The Equity Investment Strategies that the Sub-Fund will obtain exposure to and the allocation to each of those Equity Investment Strategies are determined by SEB Investment Management AB ("SEB IM AB") acting as investment manager of the Fund (the "Investment Manager").

The Equity Investment Strategies that the Fund may obtain exposure to are proprietary long-only strategies providing exposure primarily to global equities (including emerging markets) listed and/or traded on Recognised Markets, without any specific geographical, sector or market cap focus.

The Equity Investment Strategies will focus on generating financial returns with the intent to contribute to positive social, economic and/or environmental impact themes (such investment approach known as "Impact Investing"). Impact Investing can be divided into different impact themes, which are aligned with, for example, the United Nations' Sustainable Development Goals (SDGs) ("Impact Themes"). Such Impact Themes include (but are not limited to): water availability (improving access to quality water supply and preservation of the resource), sustainable energy (transition towards affordable and clean energy), food and agriculture (ensuring a sustainable food supply), resource efficiency (enhancing resource efficiency and waste reduction) and social improvement (enhancing society's needs such as but not limited to safety, education, health and wellbeing).

The Equity Investment Strategies will be implemented by gaining exposure to companies whose products and services positively contribute to these Impact Themes. Such exposure will be achieved through the use of the Financial Instruments listed under the section headed "invested financial instruments" below.

The share currency is the US Dollar (USD).

- **Invested financial instruments:** Equity securities, contracts for difference ("CFDs"), futures and listed options on UCITS eligible equity indices, forward contracts on currencies.
- **Dividend policy:** the Fund's amounts available for distribution (if any) will be distributed.
- **Net Asset Value:** Each Business Day or such other day (or days) as may be determined by the Directors and notified to Shareholders in advance provided that there shall be at least one Valuation Day every fortnight.
- **Redemptions:** 2:00 p.m. Paris Time on the 1st Business Day immediately preceding the relevant Valuation Day or such other time as the Directors may determine and notify to Shareholders.

Risk and reward profile

The risk-return category shown above is based on the historical performance of the assets included in the Fund or the performance of its benchmark index or the computed performance of a portfolio model. This risk estimate may therefore not represent a reliable indicator of future risk, and may be subject to change over time. The lowest category does not mean risk free investment. The Fund has been classified within category 6. Category 6 indicates that it is possible to suffer a severe loss of capital under normal market conditions ; the value of your investment may change substantially and have quite large daily upside or downside variation.

Main risks not covered by the above indicator which could lead to a decrease in the net asset value of the Fund and which the Fund is authorized to disclose in this document (for more details about risks, please refer to the Risk Profile section of the prospectus):

- **Counterparty risk:** The Fund is exposed to the risk that any counterparty with which it has concluded an agreement or a transaction could become insolvent or otherwise default and more particularly when it has concluded financial derivative instruments over-the-counter or securities lending transactions. If such an event occurs, the net asset value of the Fund may decrease significantly. According to the regulation applicable to the Fund, such risk cannot exceed 10% of the Fund's total assets per counterparty.
- **Risk of Financial derivative Instruments:** The Fund invests in financial derivative instruments. These financial derivative instruments can induce different types of risks such as (but not limited to) leverage risk, high volatility risk, valuation risk or liquidity risk. If this risk occurs, the net asset value of the Fund may decrease significantly.
- **Operational risk:** In the event of an operational failure of the management company or one of its representatives, investors could experience loss, delay in processing subscriptions, conversions, redemptions orders or other type of disruptions.
- **Liquidity risk:** In certain circumstances, for example in case of low trading volume on financial markets, any buy or sale trade on financial instruments held by the Fund or having an impact on its value may lead to important variations of their valuations. In such circumstances, the net asset value of the Fund could be negatively affected.
- **Credit risk:** The Fund is subject to the risk that any issuer could become insolvent or to otherwise event having an impact on the credit quality of this issuer. The consequence of this risk or event may result in a decrease of the net asset value of the Fund.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
