

## KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### Lyxor / Marathon Emerging Markets Bond Fund - Class I USD (the "Fund")

ISIN: IE00BGMHJD69 - A sub-fund of the investment company named LYXOR NEWCITS IRL II PLC (the "Company") domiciled in Ireland. Managed by Amundi Asset Management, a subsidiary of Amundi Group

## Objectives and investment policy

This Fund is an active UCITS. The investments or exposure of the Fund are not linked to the J.P. Morgan EMBI Global Diversified Index (the "Benchmark Index").

The Fund's investment objective is to outperform the J.P.Morgan EMBI Global Diversified Index over the medium to long term.

The Fund seeks to achieve this objective through investment primarily in debt instruments on emerging markets and denominated in hard currencies (USD, EUR, GBP or JPY) and to a lesser extent in currency forward and futures contracts for currency hedging purposes only.

Debt securities will be selected by implementing a proprietary discretionary investment strategy developed by Marathon Asset Management L.P., acting as Sub-Investment Manager of the Fund.

Such investment strategy is based on a combination of a top-down analysis and a bottom-up instrument selection approach.

The top-down analysis aims at identifying specific regions, countries and/or industries within emerging markets presenting investment opportunities.

The bottom-up instrument selection approach aims at selecting individual debt securities presenting the best investment opportunities amongst the different regions, countries and/or industries identified through the top-down analysis.

The share currency is the US Dollar (USD).

- **Invested financial instruments:** Sovereign and quasi-sovereign bonds, corporate bonds, FDIs, cash.
- **Dividend policy:** all the Fund's amounts available for distribution (if any) shall not be distributed to Shareholders, but reinvested.
- **Net Asset Value:** Each Business Day, or such other day or days as may be determined by the Directors and notified to Shareholders in advance, provided that there shall be at least one (1) Valuation Day every fortnight.
- **Redemptions:** 2:00 pm Paris Time on the relevant Valuation Day, or such other time as the Directors may determine and notify to Shareholders in advance.

## Risk and reward profile

The risk-return category shown above is based on the historical performance of the assets included in the Fund or the performance of its benchmark index or the computed performance of a portfolio model. This risk estimate may therefore not represent a reliable indicator of future risk, and may be subject to change over time. The lowest category does not mean risk free investment. The Fund has been classified within category 4. Category 4 indicates that under normal market conditions a moderate loss of capital is possible ; the value of your investment may have moderate and low daily upside or downside variation.

Main risks not covered by the above indicator which could lead to a decrease in the net asset value of the Fund and which the Fund is authorized to disclose in this document (for more details about risks, please refer to the Risk Profile section of the prospectus):

- **Counterparty risk:** The Fund is exposed to the risk that any counterparty with which it has concluded an agreement or a transaction could become insolvent or otherwise default and more particularly when it has concluded financial derivative instruments over-the-counter or securities lending transactions. If such an event occurs, the net asset value of the Fund may decrease significantly. According to the regulation applicable to the Fund, such risk cannot exceed 10% of the Fund's total assets per counterparty.
- **Risk of Financial derivative Instruments:** The Fund invests in financial derivative instruments. These financial derivative instruments can induce different types of risks such as (but not limited to) leverage risk, high volatility risk, valuation risk or liquidity risk. If this risk occurs, the net asset value of the Fund may decrease significantly.
- **Operational risk:** In the event of an operational failure of the management company or one of its representatives, investors could experience loss, delay in processing subscriptions, conversions, redemptions orders or other type of disruptions.
- **Liquidity risk:** In certain circumstances, for example in case of low trading volume on financial markets, any buy or sale trade on financial instruments held by the Fund or having an impact on its value may lead to important variations of their valuations. In such circumstances, the net asset value of the Fund could be negatively affected.
- **Credit risk:** The Fund is subject to the risk that any issuer could become insolvent or to otherwise event having an impact on the credit quality of this issuer. The consequence of this risk or event may result in a decrease of the net asset value of the Fund.
