This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

AMUNDI FUNDS LATIN AMERICA EQUITY - A USD A Sub-Fund of the SICAV AMUNDI FUNDS

ISIN codes: (A) LU0201575346, (D) LU0201602173

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

To achieve long-term capital growth.

The Sub-Fund invests at least 67% of assets in equities and equity-linked instruments of companies that are headquartered, or do substantial business, in Latin America. Specifically, the equity exposure of the Sub-Fund usually ranges between 90% and 100% of its total assets.

The Sub-Fund may use derivatives for hedging and efficient portfolio management.

Benchmark : The Sub-Fund is actively managed by reference to and seeks to outperform the MSCI EM Latin America Index over the recommended holding period. The Sub-Fund is mainly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark however the extent of deviation from the Benchmark is expected to be material. Further, the Sub-Fund has designated the benchmark as a reference benchmark for the purpose of the Disclosure Regulation. The Benchmark is a broad market index, which does not assess or include constituents according to environmental characteristics, and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The investment team actively manages the Sub-Fund's portfolio by combining top-down and bottom-up strategies: geographical allocation, sector allocation within each country and equity selection based on growth potential and valuation. The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the Benchmark. For the construction of the portfolio, sizable deviations versus the benchmark which serves as reference are usually taken.

Even if the Sub-Fund seeks to outperform the reference indicator in adopting an active and discretionary management process, it may, at certain points in time, achieve a return and/or expose to a portfolio close and very similar to that reference indicator due to a variety of circumstances that may among other include a narrow investment universe which offers more limited opportunities in terms of investments compared to those represented in that reference indicator, the chosen degree of risk exposure depending on market circumstances or environment, a wide spread portfolio investing in a large number of securities or the current liquidity conditions.

The accumulation share automatically retains, and re-invests, net investment incomes within the Sub-Fund when the distribution share pays dividends in September of each year.

The minimum recommended holding term is 5 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.
