AMUNDI FUNDS SUSTAINABLE GLOBAL PERSPECTIVES - I EUR A Sub-Fund of the SICAV AMUNDI FUNDS

ISIN codes: (A) LU0907914518, (D) LU0907914609

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

To achieve a combination of income and capital growth (total return) through investment in Sustainable Investments pursuant to Article 9 of the Disclosure Regulation. Specifically, the sub-fund aims to contribute to reducing the carbon footprint of the portfolio.

The Sub-Fund invests at least 67% of assets in equities, bonds and convertible bonds around the world, including in emerging markets. The Sub-Fund may also invest up to following percentages of net assets in: money market instruments and deposits, 33%; asset-backed securities (ABS), 10%; UCITS/UCIs, 10%. The Sub-Fund's exposure to commodities, real estate and convertible bonds is each limited to 10% of net assets. The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, equities, interest rates and foreign exchange).

Benchmark : The Sub-Fund is actively managed and seeks to outperform the Euro Short Term Rate Index (ESTER) (the "Benchmark") by 5% over the recommended holding period, while offering controlled risk exposure. The Sub-Fund may use a benchmark a posteriori as an indicator for assessing the Sub-Fund's performance and, as regards the performance fee benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such Benchmark restraining portfolio construction. The Sub-Fund has designated a composite index [Climate Change Index + 15% MSCI USD IG Climate Change Corporate Bond Index + 15% MSCI EUR IG Climate Change Corporate Bond Index + 5% MSCI USD HY Climate Change Corporate Bond Index + 5% MSCI EUR HY Climate Change Corporate Bond Index] as a reference benchmark for the purpose of the Disclosure Regulation.

Management Process : The Sub-Fund's investment team analyses macroeconomic trends, asset valuations and risk factors attractiveness to identify investment strategies that appear likely to offer the best risk-adjusted returns, as well as their ESG, in particular carbon intensity characteristics. The investment team then constructs a highly diversified portfolio which can be flexibly adapted to market movements with a view to operating sustainable performance. This may involve taking both strategic and tactical positions as well as arbitrage on any equity, interest rate and currency markets. The sustainable investment objective is attained by aligning the carbon footprint reduction objectives of the fund with the composite index 60% MSCI ACWI Climate Change Index + 15% MSCI USD IG Climate Change Corporate Bond Index + 15% MSCI EUR IG Climate Change Corporate Bond Index + 5% MSCI USD HY Climate Change Corporate Bond Index + 5% MSCI EUR HY Climate Change Corporate Bond Index. (the "Index"). The portfolio carbon footprint intensity is calculated as an asset weighted portfolio average and compared to the asset weighted carbon footprint intensity of the Index. The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of its investment universe.

The accumulation share automatically retains, and re-invests, net investment incomes within the Sub-Fund when the distribution share pays dividends in September of each year. The minimum recommended holding term is 5 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the investments in long and short positions taken on the equity and the fixed-income markets within the pre-defined leeway.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.

- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Emerging Markets risk : Some of the countries invested in may carry higher political, legal, economic and liquidity risks than investments in more developed countries.

The use of complex products such as financial derivative instruments might increase market movements in your portfolio.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
Conversion charge	1.00%
This is the maximum that might be taken out of your money before the proceeds of your investment are paid out.	
Charges taken from the Sub-Fund over a year	
Ongoing charges	0.61%
Charges taken from the Sub-Fund under certain specific conditions	
Performance fee	20.00% a year of any returns the Sub-Fund achieves above Euro short-term rate (€STR) +5%. Over the last accounting year, a performance fee of 2.58% was charged.

The **entry** and **conversion charges** shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The **ongoing charges** figure is based on expenses for the year ending June 30, 2021. This figure may vary from year to year. It excludes:

- Performance fees,
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking.

The calculation of the performance fee applies on each Net Asset Value calculation date in accordance with the terms and conditions described in the prospectus.

The comparison of the Net Asset Value of the share class and the Reference Asset (as defined in the prospectus) is carried out over an observation period of maximum five years. The performance fee represents 15% the adjacent percentage of the difference between the net assets of the share Class (before deduction of the performance fee) and the Reference Asset if the difference is positive, and if the relative performance of the share class compared to the Reference Asset is positive or nil, since the beginning of the performance observation period. Past underperformances over the last 5 years should be clawed back before any new accrual of performance fee.

The anniversary date corresponds to the day of calculation of the last Net Asset Value of the month of June. Performance fee accruals will be paid to the Management Company on an anniversary date and a new observation period starts.

The performance fee is not paid to the Management Company if the performance of the share class over the performance observation period is negative, while remaining higher than the performance of the Reference Asset.

For more information about charges, please see charges paragraph of the prospectus of the UCITS, which is available at: www.amundi.com.
