

Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

FIRST EAGLE AMUNDI INCOME BUILDER FUND - AHK A Sub-Fund of the SICAV FIRST EAGLE AMUNDI

ISIN code: (A) LU1150488481

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

The objective of the Sub-Fund is to offer regular income generation consistent with long term capital growth.

To achieve this objective, the Sub-Fund will apply an investment process based on fundamental analysis (i.e. a method of evaluating the 'intrinsic value' of a security by examining related economic, financial and other qualitative and quantitative factors). The Sub-Fund will follow a 'value approach' that seeks to purchase securities at a discount to their 'intrinsic value'. The Sub-Fund will seek to allocate approximately 80% of its assets in income producing transferable securities and instruments such as stocks, equity-linked instruments (i.e. stocks and financial instruments replicating or based on a stock) and bonds or other fixed income investments which offer attractive expected returns relative to their risk level. Investments will be made without any restrictions in terms of geographic allocation, market capitalization, sector, rating or time to maturity. The Sub-Fund may invest in financial derivative instruments for hedging and portfolio management purposes; including derivatives aiming to protect against default of an issuer.

Benchmark : The Sub-Fund is actively managed. The Sub-Fund may use a benchmark a posteriori as an indicator for assessing the Sub-Fund's performance and, as regards the performance fee benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such Benchmark restraining portfolio construction.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process and takes into account principal adverse impacts of investment decisions on Sustainability Factors.

The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 5 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in international equities and debt securities, namely asset backed securities.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.

- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Hedging risk : The currency hedging may be imperfect and generate a difference between the performance of the Sub-Fund and the share-class you are invested in.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
