

Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

AMUNDI FUNDS EUROPEAN EQUITY GREEN IMPACT - F2 EUR

A Sub-Fund of the SICAV AMUNDI FUNDS

ISIN code: (A) LU1579337871

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

To achieve capital growth over the recommended holding period.

The Sub-Fund invests mainly in equities of companies that are headquartered, or do substantial business, in Europe. Whilst the investment manager aims to invest in ESG Rated securities not all investments of the Sub-Fund will have an ESG rating and in any event such investments will not be more than 10% of the Sub-Fund.

The Sub-Fund expects to have an equity exposure of between 75% and 120%.

Benchmark : The Sub-Fund is actively managed and seeks to outperform (after applicable fees) the MSCI Europe (dividends reinvested) Index over the recommended holding period. The Sub-Fund uses the Benchmark a posteriori as an indicator for assessing the Sub-Fund's performance and, as regards the performance fee, as a benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such Benchmark restraining portfolio construction. Further, the Sub-Fund has designated the benchmark as a reference benchmark for the purpose of the Disclosure Regulation. The Benchmark is a broad market index, which does not assess or include constituents according to environmental characteristics, and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The sub-fund's investment team selects European companies according to their sales exposure to environmental activities and which perform well based on ESG (environment, social and governance) criteria. It excludes companies which produce fossil fuels or energy from fossil fuels or are involved in the production or sale of controversial weapons. The investment team uses an optimisation process to achieve the desired diversification, number of securities, risk profile and liquidity. The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the Benchmark. The Sub-Fund's investable universe (as represented by its Benchmark) is reduced by a minimum of 20% due to exclusion of securities with a lower ESG rating.

The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 5 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in European equities.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.
 - Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
 - Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
 - Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
