

Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

AMUNDI INVESTMENT FUNDS - JAPANESE EQUITY - X EUR A Sub-Fund of the SICAV AMUNDI INVESTMENT FUNDS

ISIN code: (A) LU1599403224

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

This Sub-Fund seeks to achieve capital appreciation over the recommended holding period by investing in a diversified portfolio of equity securities issued by companies listed in Japan.

The Sub-Fund may not invest more than 30% in small capitalisation securities. The Sub-Fund may invest mainly in securities dealt on Regulated Markets. Furthermore, the Sub-Fund may not invest more than 5% in securities issued by the same issuer and more than 10% in securities issued by companies that are part of the same group. The Sub-Fund may not invest in securities issued by companies being part of the same group to which the Management Company belongs.

The Sub-Fund is permitted to invest in financial derivative instruments for hedging purposes and for portfolio efficiency.

Benchmark : The Sub-Fund is actively managed by reference to and seeks to outperform (after applicable fees) the MSCI Japan Index. The Sub-Fund is predominantly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark however the extent of deviation from the Benchmark is expected to be limited. Further, the Sub-Fund has designated the Benchmark as reference benchmark for the purpose of the Disclosure Regulation. The Benchmark is a broad market index, which does not assess or include its constituents according to environment characteristics and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund. Information in respect of the methodology used for the calculation of the Benchmark can be found at www.amundi.com.

The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in the "Sustainable Investment" section of the Prospectus. The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the Benchmark. In determining the ESG score of the Sub-Fund and the Benchmark, ESG performance is assessed by comparing the average performance of a security against the security issuer's industry in respect of each of the three ESG characteristics of environmental, social and governance. The selection of securities through the use of Amundi's ESG rating methodology takes into account principal adverse impacts of investment decisions on Sustainability Factors according to the nature of the Sub-Fund.

This is a non-distributing share class. Investment income is re-invested.

The minimum recommended holding term is 6 years.

Investors may sell on demand on any business day in Luxembourg.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in Japanese equities.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the share class.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.
- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
