Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

AMUNDI FUNDS PIONEER US SHORT TERM BOND - C EUR
A Sub-Fund of the SICAV AMUNDI FUNDS
ISIN code: (A) LU1882442541

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.
Seeks to provide income and maintain the value of your investment over the recommended holding period.
The Sub-Fund invests mainly in U.S. dollar denominated short-term bonds and in comparable securities that are denominated in other currencies, provided that the currency exposure is principally hedged back to the U.S. dollar. Investments may include contingent convertible bonds up to 5% of net assets. Investments may also include mortgage-backed securities (MBS) and asset-backed securities (ABS). The Sub-Fund's average interest rate duration is no greater than 12 months. The Sub-Fund may invest up to 80% of net assets in ABSs and MBSs. This includes indirect exposure gained through to-be announced securities (TBA), which is limited to 50% of its net assets. The exposure to non-agency MBS and ABS is limited to 75% of its net assets.
The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on interest rates). The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets.
Benchmark : The Sub-Fund is actively managed and uses the ICE BofA US 3-month Treasury Bill Index a posteriori as an indicator for assessing the Sub-Fund's performance and, as regards the performance fee, as a benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such benchmark restraining portfolio construction. The Sub-Fund has not designated a reference benchmark for the purpose of the Disclosure Regulation.
Management Process : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The investment manager uses a combination of market analysis and analysis of individual bond issuers to identify those bonds that appear to offer the best return for their risk level. The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of its investment universe.
The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.
The minimum recommended holding term is 18 months.
Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

Lower risk, Higher risk,

Typically lower reward Typically higher reward

1	2	3	**4**	5	6	7

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in international bonds and the index inverse performance strategy.

Historical data may not be a reliable indication for the future.
Risk category shown is not guaranteed and may shift over time.
The lowest category does not mean 'risk free'.
Your initial investment does not benefit from any guarantee or protection.
Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.
- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest
