AMUNDI FUNDS GLOBAL INFLATION SHORT DURATION BOND - I2 EUR A Sub-Fund of the SICAV AMUNDI FUNDS

ISIN code: (A) LU1883325018

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

To achieve a combination of income and capital growth (total return).

The Sub-Fund invests at least 50% of net assets in investment-grade inflation-linked bonds from around the world, including emerging markets up to 10% of the net assets. These securities will be denominated in the currency of any of OECD or European Union member state. The Sub-Fund's average interest rate duration will be in the range of +1 and +5 years. Non Euro currency exposure is limited to 20% of net assets. The proportion of green bonds may represent up to 25% of the net assets.

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates, foreign exchange, and inflation).

Benchmark : The Sub-Fund is actively managed by reference to and seeks to outperform the Bloomberg World Government Inflation-Linked Bonds 1-5yrs (hedged to EUR) Index. The Sub-Fund is mainly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark however the extent of deviation from the Benchmark is expected to be significant.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The investment team analyses interest rates and economic trends (top-down) to build its expectations for real interest rates and inflation rates. The investment team then uses both technical and fundamental analysis to select issuers and securities (bottom-up) and implement arbitrages between indexed and fixed-rate bonds.

The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 1,5 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from inflation-linked bonds in which it is invested.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.
- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
