AMUNDI SOLUZIONI ITALIA - PROGETTO SVILUPPO ORIENTE - E EUR A Sub-Fund of AMUNDI SOLUZIONI ITALIA

ISIN code: (A) LU1965337451

Management Company: Amundi SGR S.p.A

Objectives and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

The objective of this Sub-Fund is to achieve capital appreciation over the recommended holding period by investing in a diversified portfolio of:

- Equity and equity-linked instruments, issued by any companies worldwide;

- "Investment Grade" or "sub-Investment Grade" debt and debt-related instruments denominated in any currency, issued by companies, governments, local authorities and international public or supranational bodies based anywhere in the world, including Emerging Markets;

- Money Market Instruments and cash.

The Sub-Fund will allocate investments to securities issued by companies, governments, local authorities and international public or supranational bodies that are based in or do most of their business in Emerging Markets and directly or indirectly benefit from the Belt and Road Initiative ("BRI") of the People's Republic of China. The BRI aims to improve land and sea infrastructure and pathways for connectivity and economic cooperation in countries of Asia, Europe, Middle East and Africa. The Sub-Fund will gradually increase these investments so that, after four years from launch, such investments represent at least 80% of the Sub-Fund's assets.

The Sub-Fund may invest indirectly or directly (i.e. via Direct CIBM access or Bond Connect) in Chinese bonds. The Sub-Fund may invest and have direct access to China A shares via Stock Connect and the R-QFII license system for up to 30% of its assets.

The Sub-Fund may also invest in P-Notes for the purpose of efficient portfolio management.

The Sub-Fund's investments may include convertible bonds and, up to 10% of its assets, contingent convertible bonds. The Sub-Fund's exposure to distressed securities is limited to 5% of its assets.

The Sub-Fund may use derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets, income streams or other investment opportunities.

The Sub-Fund may also invest in units or shares of UCIs.

Benchmark : The Sub-Fund is actively managed and is not managed in reference to a benchmark.

The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. Further, the Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of its investment universe.

This is a non-distributing unit class. Investment income is re-invested.

The minimum recommended holding term is 5 years.

Investors may sell on demand on any business day in Luxembourg.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the investments in long and short positions taken on the equity and the fixed-income markets within the pre-defined leeway.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the unit class.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.
 - Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
 - Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
 - Derivatives risk : Derivatives create leverage in the Sub-Fund and may cause movements in the value of the underlying investments to amplify gains or losses to the Sub-Fund.
 - Emerging Markets risk : Some of the countries invested in may carry higher political, legal, economic and liquidity risks than investments in more developed countries.
- The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
