Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge*	2.20%
Exit charge**	1.00%
Conversion charge	None
This is the maximum that might be taken out of your money before the proceeds of your investment are paid out.	
Charges taken from the Sub-Fund over a year	
Ongoing charges	1.35%
Charges taken from the Sub-Fund under certain specific conditions	
Performance fee	<p>The performance fee is 15% charged for performance above the hurdle rate of 2% over the Performance Period (i.e. the period from the Launch Date until the Maturity Date).</p> <p>Over the last accounting year, a performance fee of 0.00% was charged.</p>

The **entry** and **conversion charges** shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

*The entry charge, which is deferred for this unit class, reduces to zero over a four year period from Launch Date, and is only payable when an investor sells within that period.

**The exit charge is only payable when an investor sells prior to the Maturity Date.

The **ongoing charges** figure is based on expenses for the year ending December 31, 2021. This figure may vary from year to year. It excludes:

- Performance fees,
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking.

The calculation of the performance fee applies on each valuation day in accordance with the terms and conditions described in the prospectus. The comparison of the net assets of the unit and the performance hurdle (as defined in the prospectus) is carried out over a performance period from the Launch Date (as defined in the prospectus) to the Maturity Date. The performance fee represents 15% of the outperformance of the unit over its performance hurdle or, where the performance hurdle declines, the positive performance of the unit during the performance period. Where the return of the unit is negative over the performance period, no performance fee is paid.

Performance fee accruals will be paid to the Management Company at Maturity Date.

For more information about charges, please see charges paragraph of the prospectus of the UCITS, which is available at: www.amundi.it.
