A Sub-Fund of the SICAV AMUNDI FUND SOLUTIONS

ISIN code: (A) LU2092767479

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

The objective of the Sub-Fund is to achieve income and as a secondary objective capital appreciation over the recommended holding period by investing mainly in Investment Grade or sub-Investment Grade debt and debt-related instruments of any type from a broad range of issuers, including governments, supranational entities, international public bodies and corporations from anywhere in the world, including Emerging Markets, as well as Money Market Instruments and cash.

The Sub-Fund's investments may include, but are not limited to, subordinated bonds, senior bonds, preferred securities and convertible securities.

The Sub-Fund's investments may include contingent convertible bonds up to 10% of its assets and corporate hybrid bonds up to 20% of its assets.

The Sub-Fund will seek to hedge back to Euro the currency exposure from investments in instruments not denominated in Euro.

The maturity or call date of the bonds will generally be compatible with the Sub-Fund's Maturity Date. The Sub-Fund may invest up to 20% of its assets in callable bonds maturing after the Maturity Date provided they have a first call date before the Sub-Fund's Maturity Date.

The Sub-Fund may use derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets, income streams or other investment opportunities.

The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

The Sub-Fund will aim to achieve a broad diversification until Maturity Date.

Benchmark : The Sub-Fund is actively managed and is not managed in reference to a benchmark.

The Sub-Fund integrates Sustainability Factors in its investment process and takes into account principal adverse impacts of investment decisions on Sustainability Factors as outlined in more detail in section "Sustainable Investment" of the Prospectus.

The initial subscription period of the Sub-Fund will end on 29th May 2020. The Sub-Fund matures on 6th April 2026 (the "Maturity Date") when the Sub-Fund will be liquidated and the net proceeds of liquidation will be distributed among shareholders.

This is a non-distributing share class. Investment income is re-invested.

The minimum recommended holding term is 6 years.

Investors may sell on demand on any business day in Luxembourg.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects that of its underlying asset class, namely, credit of all ratings from emerging countries, including unrated securities, via derivatives, and the portfolio's leverage.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the share class.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.
- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Emerging Markets risk : Some of the countries invested in may carry higher political, legal, economic and liquidity risks than investments in more developed countries.

The use of complex products such as financial derivative instruments might increase market movements in your portfolio.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
