

Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

AMUNDI FUNDS EMERGING MARKETS GREEN BOND - I USD A Sub-Fund of the SICAV AMUNDI FUNDS

ISIN code: (A) LU2138388066

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

Seeks to increase the value of your investment and to provide income over the recommended holding period through investment in Sustainable Investments pursuant to Article 9 of the Disclosure Regulation.

The Sub-Fund invests at least 75% of its assets in a diversified portfolio of "Emerging Markets Green Bonds" denominated in USD or other OECD Currencies.

"Emerging Markets Green Bonds" are defined as debt securities and instruments issued by companies that are headquartered, or do substantial business, in an emerging country, which fund eligible projects meeting the criteria and guidelines of the Green Bond Principles (as published by the ICMA). Whilst the investment manager aims to invest in ESG Rated securities not all investments of the Sub-Fund will have an ESG rating and in any event such investments will not be more than 10% of the Sub-Fund.

The Sub-Fund may also invest in bonds issued by companies, governments or institutions from any country that are denominated in other currencies and may invest up to 80% in high yield bonds. The Sub-Fund may also invest in other types of bonds, in money market instruments, in deposits, convertible bonds up to 25%, ABSs and MBSs up to 20%, UCITS/UCIs up to 10%, distressed securities up to 10% and contingent convertible bonds up to 10%.

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit). The Sub-Fund may use credit derivatives (up to 40% of net assets).

Benchmark : The sub-fund is actively managed. The 3 Month USD Libor Index serves, a posteriori, as an indicator for assessing the Sub-Fund's performance and for the relevant share classes calculating the performance fees. There are no constraints relative to the 3 Month USD Libor restraining portfolio construction. The Sub-Fund has not designated the Benchmark as a reference benchmark for the purpose of the Disclosure Regulation.

Management Process : The Sub-Fund's sustainable investment is focused primarily on climate and environmental objectives by investing in Emerging Markets Green Bonds, which fund eligible projects meeting the criteria and guidelines of the Green Bond Principles (as published by the ICMA). The investment process identifies the best opportunities both in terms of financial prospects as well as their ESG, in particular environmental, characteristics. The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of its investment universe.

The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 5 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in emerging markets bonds.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.

- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Emerging Markets risk : Some of the countries invested in may carry higher political, legal, economic and liquidity risks than investments in more developed countries.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
