

Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

AFH - AEQUITAS FLEXILE - A A Sub-Fund of the SICAV AFH

ISIN code: (A) LU2230866910

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

To deliver a combination of income and capital growth over a 5 years period.

The Sub-Fund will be a fund of funds that will invest at least 50% of its net assets in UCITS/UCIs exposing to equities, bonds, high yield bonds, convertible bonds, contingent convertible bonds, deposits and currencies. While complying with the above, the Sub-Fund may also directly invest the remaining part of its assets in the above listed securities, as well as money market instruments. The Investment Manager follows a flexible allocation strategy amongst those asset classes and selects investments believed to represent the most compelling trade-off between growth potential, valuation and risk. Considering market volatility conditions, the Investment Manager constructs and rebalances the portfolio monthly, adopting a dynamic, conservative or balanced profile, as outlined more in detail in section Investments of the Prospectus.

Benchmark : The Sub-Fund is actively managed and seeks to outperform (after applicable fees) the Euribor 3 Month ACT/360 + 2,50% over the recommended holding period. The Sub-Fund may use a benchmark a posteriori as an indicator for assessing the Sub-Fund's performance. There are no constraints relative to any such Benchmark restraining portfolio construction.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The selection process is a combination of top-down and bottom-up approach. The Investment Manager uses its own and third party global economic analysis to determine the most attractive asset types, geographical regions and currency, then focuses on the analysis of specific securities to identify the financial instruments that offer the best potential gain for the risk involved. The Investment Manager aims to access the best growth opportunities and balancing income and returns with risk and liquidity.

The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 5 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in the stock markets and fixed income markets. The management mode is balanced.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.

- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Emerging Markets risk : Some of the countries invested in may carry higher political, legal, economic and liquidity risks than investments in more developed countries.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
Conversion charge	None
This is the maximum that might be taken out of your money before the proceeds of your investment are paid out.	
Charges taken from the Sub-Fund over a year	
Ongoing charges	1.88%
Charges taken from the Sub-Fund under certain specific conditions	
Performance fee	15.00% a year of any returns the Sub-Fund achieves above Euribor 3 Month ACT/360 + 2,50%.
	No commission was taken over the last accounting year of the Sub-Fund.

The **entry** and **conversion charges** shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The **ongoing charges** figure is based on expenses for the current year. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking.

The ongoing charges displayed are estimated. For each accounting period, the Sub-Fund's annual report will display the exact amount.

The calculation of the performance fee applies on each Net Asset Value calculation date in accordance with the terms and conditions described in the prospectus.

The comparison of the Net Asset Value of the share class and the Reference Asset (as defined in the prospectus) is carried out over an observation period of maximum five years. The performance fee represents 15% the adjacent percentage of the difference between the net assets of the share Class (before deduction of the performance fee) and the Reference Asset if the difference is positive, and if the relative performance of the share class compared to the Reference Asset is positive or nil, since the beginning of the performance observation period. Past underperformances over the last 5 years should be clawed back before any new accrual of performance fee.

The anniversary date corresponds to the day of calculation of the last Net Asset Value of the month of December.

Performance fee accruals will be paid to the Management Company on an anniversary date and a new observation period starts.

The performance fee is not paid to the Management Company if the performance of the share class over the performance observation period is negative, while remaining higher than the performance of the Reference Asset.

For more information about charges, please see charges paragraph of the prospectus of the UCITS, which is available at: fundsquare.com.

Past Performance

The Sub-Fund does not yet have performance data for one complete calendar year to display a graph of past performance.

The chart has a limited value as a guide to future performance. The Sub-Fund was launched on July 5, 2021. The Share Class was launched on July 5, 2021. The reference currency is the Euro.
