This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

AMUNDI S.F. - HIGH POTENTIAL BOND - E EUR Hgd AD A Sub-Fund of AMUNDI S.F.

ISIN code: (D) LU2321584760

Management Company: Amundi Luxembourg SA

Objectives and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

The objective of this Sub-Fund is to increase the value of your investment and provide income over the recommended holding period. The Sub-Fund invests mainly in a broad range of subordinated securities from corporate issuers anywhere in the world, including Emerging Markets, and denominated in any currency.

The Sub-Fund's investments may include, but are not limited to, subordinated bonds, senior bonds, preferred securities, perpetual bonds, convertible securities such as corporate hybrid bonds (up to 50% of its assets) and contingent convertible bonds (up to 20% of its assets). The Sub-Fund may also invest in debt and debt-related instruments denominated in any currency issued by any government or by supranational bodies, local authorities and international public bodies, as well as money market instruments and cash. The Sub-Fund may invest in Investment or Sub-investment grade bonds. While complying with the above policies, the Sub-Fund may invest more than 10% of its assets in UCIs and UCITS. The Sub-Fund may use derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure to various assets, markets or income streams. The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus.

Benchmark : The Sub-Fund is actively managed by reference to and seeks to outperform (after applicable fees) the Benchmark. The Sub-Fund is mainly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark however the extent of deviation from the Benchmark is expected to be material. Further, the Sub-Fund has designed the benchmark as a reference benchmark for the purpose of the Disclosure Regulation. The Benchmark comprises broad market indices, which do not assess or include constituents according to environmental characteristics, and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund. Information in respect of the methodology used for the calculation of the Benchmark can be found at www.amundi.com.

Management Process :

The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. Further, the Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the Benchmark.

The distribution unit pays dividends annually.

The minimum recommended holding term is 3 years.

Investors may sell on demand on any business day in Luxembourg.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in international bonds.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the unit class.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.

- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Hedging risk : The currency hedging may be imperfect and generate a difference between the performance of the Sub-Fund and the unit-class you are invested in.

The use of complex products such as financial derivative instruments might increase market movements in your portfolio.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
