

Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

AMUNDI FUNDS IMPACT GREEN BONDS - J2 EUR A Sub-Fund of the SICAV AMUNDI FUNDS

ISIN code: (A) LU2349692934

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

Seeks to achieve a combination of income and capital growth (total return) over the recommended holding period through investment in Sustainable Investments pursuant to Article 9 of the Disclosure Regulation. Specifically, the sub-fund invests as a feeder fund in Amundi Responsible Investing - Impact Green Bonds (master fund "MF") that seeks to provide performance linked to Sustainable Investments, by investing in green bonds whose impact on the environment is positive, assessed on the basis of estimated greenhouse gas emissions avoided and using the tonnes of CO2 equivalent emissions (tCO2e) avoided as indicator.

The MF invests mainly in OECD investment grade green bonds issued by any issuer around the world and denominated in any currency. Specifically, the Sub-Fund invests at least 85% of net assets in units of the MF (OR-D class). The Sub-Fund may invest up to 15% in deposits.

The MF may invest up to 100% of its net assets (with a minimum of 50% from issuers with an ESG rating of between A and D) in all of the following types of green bonds around the world, including up to 15% of the assets in emerging markets: fixed-rate and variable-rate bonds; indexed bonds: inflation, CMR (Constant Maturity Rate); subordinated securities issued by banks, corporations or insurance companies; ABS/MBS up to a maximum of 10% of net assets.

The MF may invest up to 15% of net assets in unrated or below-investment grade securities.

The currency risk will be hedged up to a total exposure to currencies other than the euro of 10% of the net assets.

The MF makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives that focus on interest rates, credit and foreign exchange).

Benchmark : The MF is actively managed. The Barclays MSCI Global Green Bond Index (coupons reinvested), hedged in euro (the "Index") serves a posteriori as an indicator for assessing the MF's performance. There are no constraints relative to the Index restraining portfolio construction. The MF has not designated the Index as a reference benchmark for the purpose of the Disclosure Regulation.

Management Process : The MF's sustainable investment is focused on environmental objectives by investing in green bonds meeting the criteria and guidelines of the Green Bond Principles (as published by the ICMA) and for which the positive impact on energy transition and the environment of the projects it finances can be assessed (according to an internal analysis conducted by the Investment Manager on the environmental aspects of these projects).

The MF integrates Sustainability Factors in its investment process, outlined in more detail in section "Sustainable Investment" of the Prospectus.

The portfolio is subject to analysis using traditional financial criteria relating to credit-worthiness. The Investment Manager actively manages the portfolio to take also advantage of changes in interest rates and the credit spreads. The Investment Manager then selects the securities that offer the best medium-term risk/reward profile.

The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 3 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in Eurozone government or assimilated bonds and corporate bonds.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.

The respective dealing cut-off time for the Sub-Fund and the Master Fund are set so that valid subscription or redemption orders for shares of the Sub-Fund are placed before the cut-off time of the Master Fund so as to be processed at a same dealing day. Further details are provided in the prospectus of the Master Fund.

- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Emerging Markets risk : Some of the countries invested in may carry higher political, legal, economic and liquidity risks than investments in more developed countries.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None
Conversion charge	1.00%
This is the maximum that might be taken out of your money before the proceeds of your investment are paid out.	
Charges taken from the Sub-Fund over a year	
Ongoing charges	0.38% (including the Master Fund's fees)
Charges taken from the Sub-Fund under certain specific conditions	
Performance fee	None

The **entry** and **conversion charges** shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The **ongoing charges** figure is based on expenses for the current year. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs.

The ongoing charges displayed are estimated. For each accounting period, the Sub-Fund's annual report will display the exact amount.

For more information about charges, please see charges paragraph of the prospectus of the Sub-Fund and/or Master Fund, which is available at: www.amundi.com.

Past Performance

A : Simulation based on the performance of the French fund Amundi Responsible Investing Impact Green Bonds managed by Amundi Asset Management SAS and master of Amundi Funds Impact Green Bonds.
B : Performance of the Sub-Fund since its launch date.

The chart has a limited value as a guide to future performance. The annualised performances displayed in this diagram are calculated net of all charges taken by the Sub-Fund. The Sub-Fund was launched on July 6, 2021. The Share Class was launched on July 6, 2021. The reference currency is the Euro.
