AMUNDI FUNDS MONTPENSIER GREAT EUROPEAN MODELS SRI - A2 EUR A Sub-Fund of the SICAV AMUNDI FUNDS

ISIN code: (A) LU2349693155

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

To achieve capital growth over the recommended holding period through investment in Sustainable Investments pursuant to Article 9 of the Disclosure Regulation. Specifically, the sub-fund invests as a feeder fund in the Montpensier GREAT EUROPEAN MODELS SRI (master fund) that seeks to outperform its benchmark index, the Stoxx Europe 600 (SXXR) index).

The sub-fund invests at least 85% of net assets in units of the master fund (Y class). The sub-fund may invest up to 15% in deposits. The Master-Fund integrates Sustainability Factors in its investment process as outlined in more detail in the Transparency Code which is available on the fund's dedicated page on the management company website, www.montpensier.com.

The portfolio of the master-fund is exposed to at least 60% in equities from European Union countries. Investments in securities eligible to the French "Plan d'Epargne Action" will represent a minimum of 75% of the assets.

Investments in equities of small-cap stocks will be limited to 20% of the assets.

The master-fund may use derivatives to reduce various risks and to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Benchmark : The Stoxx Europe 600 (SXXR) index serves a posteriori as an indicator for assessing the sub-fund's performance. The Master Fund is actively managed and there are no constraints relative to Stoxx Europe 600 (SXXR) index restraining portfolio construction.

Management Process : The master fund's investment manager's strategy is bottom up, favouring the intrinsic choice of securities, i.e. essentially stock picking. It is not a quantitative type of management.

The objective of taking ESG criteria into account within the fund is to combine financial performance with the desire to positively influence issuers in terms of ESG performance, by encouraging companies to make progress on integrating ESG criteria into their activities, thereby promoting best practices. The extra-financial approach implemented is presented in the SICAV's Transparency Code available on the website of the master-fund's investment manager.

The master fund's investment manager's approach is based on identifying investment areas (i.e. sectors or sub-sectors of activity, product or service lines, etc.) that he considers promising in the short, medium or long term. The master fund's investment manager relies on research and analysis of themes or trends that it deems favourable, from a structural or economic point of view, for the development of companies. More information on the management process available in the Prospectus.

The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 5 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in European equities.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

The respective dealing cut-off time for the Sub-Fund and the Master Fund are set so that valid subscription or redemption orders for shares of the Sub-Fund are placed before the cut-off time of the Master Fund so as to be processed at a same dealing day. Further details are provided in the prospectus of the Master Fund.

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.
- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
