

AMUNDI FUNDS LATIN AMERICA EQUITY - A USD

FACTSHEET

Marketing
Communication

30/11/2025

EQUITY ■

Objective and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. To achieve long-term capital growth. The Sub-Fund invests at least 67% of assets in equities and equity-linked instruments of companies that are headquartered, or do substantial business, in Latin America. Specifically, the equity exposure of the Sub-Fund usually ranges between 90% and 100% of its total assets. The Sub-Fund may use derivatives for hedging and efficient portfolio management.

Benchmark : The Sub-Fund is actively managed by reference to and seeks to outperform the MSCI EM Latin America Index over the recommended holding period. The Sub-Fund is mainly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark however the extent of deviation from the Benchmark is expected to be material. Further, the Sub-Fund has designated the benchmark as a reference benchmark for the purpose of the Disclosure Regulation. The Benchmark is a broad market index, which does not assess or include constituents according to environmental characteristics, and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The investment team actively manages the Sub-Fund's portfolio by combining top-down and bottom-up strategies: geographical allocation, sector allocation within each country and equity selection based on growth potential and valuation. The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the Benchmark. For the construction of the portfolio, sizable deviations versus the benchmark which serves as reference are usually taken. Even if the Sub-Fund seeks to outperform the reference indicator in adopting an active and discretionary management process, it may, at certain points in time, achieve a return and/or expose to a portfolio close and very similar to that reference indicator due to a variety of circumstances that may among other include a narrow investment universe which offers more limited opportunities in terms of investments compared to those represented in that reference indicator, the chosen degree of risk exposure depending on market circumstances or environment, a wide spread portfolio investing in a large number of securities or the current liquidity conditions.

Risk & Reward Profile (Source: Fund Admin)

Risk Indicator (Source : Fund Admin)

The SRI represents the risk and return profile as presented in the Key Information Document (KID). The lowest category does not imply that there is no risk. The SRI is not guaranteed and may change over time. The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you. Additional risks: Market liquidity risk could amplify the variation of product performances. This product does not include any protection from future market performance so you could lose some or all of your investment. Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Amundi Funds prospectus.

EQUITY

AVERAGE ESG RATING (source : Amundi)

Environmental, social and governance rating

ESG Investment Universe: MSCI EM Latin America

Investment Portfolio Score: 0.27

ESG Investment Universe Score¹: 0.16

ESG Terminology

ESG criteria

The criteria are extra-financial criteria used to assess the Environmental, Social and Governance practices of companies, states or local authorities:

- "E" for Environment (energy and gas consumption levels, water and waste management, etc.).
- "S" for Social/Society (respect for human rights, health and safety in the workplace, etc.).
- "G" for Governance (independence of board of directors, respect for shareholders' rights, etc.).

ESG Rating

The issuer's ESG rating: each issuer is assessed on the basis of ESG criteria and obtains a quantitative score, the scale of which is based on the sector average. The score is translated into a rating on a scale from A (highest rating) to G (lowest rating). The Amundi methodology provides for a comprehensive, standardised and systematic analysis of issuers across all investment regions and asset classes (equities, bonds, etc.).

ESG rating of the investment universe and the portfolio: the portfolio and the investment universe are given an ESG score and an ESG rating (from A to G). The ESG score corresponds to the weighted average of the issuers' scores, calculated according to their relative weighting in the investment universe or in the portfolio, excluding liquid assets and non-rated issuers.

Amundi ESG Mainstreaming

In addition to complying with Amundi Responsible Investment Policy⁴, Amundi ESG Mainstreaming portfolios have an ESG performance objective that aims to achieve a portfolio ESG score above the ESG score of their ESG Investment universe.

¹ The investment universe reference is defined by either the fund's reference indicator or an index representative of the ESG-related investable universe.
² Percentage of securities with an Amundi ESG rating out of the total portfolio (measured in weight) that can be related.
³ Percentage of securities for which an ESG rating methodology is applicable out of total portfolio (measured in weight).
⁴ The updated document is available at <https://www.amundi.com/int/ESG>.

Sustainability Level (source : Morningstar)

The sustainability level is a rating produced by Morningstar that aims to independently measure the level of responsibility of a fund based on the values in the portfolio. The rating ranges from very low (1 Globe) to very high (5 Globes).
