Objective and Investment Policy

The Sub-Fund seeks to offer investors capital growth through diversification of its investments over all categories of assets and a policy of following a 'value' approach.

To pursue its goal, it invests at least two-thirds of its Net Assets in equities, Equity-linked Instruments and bonds without any restriction in terms of market capitalisation, geographical diversification or in terms of what part of the assets of the Sub-Fund may be invested in a particular class of assets or a particular market. The investment process is based on fundamental analysis of the financial and business situation of the issuers, market outlook and other elements.

UK retail investors will not have any protection under the UK Financial Services Compensation Scheme (FSCS).
