Objective and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

The Sub-Fund seeks to increase the value of your investment over the recommended holding period. More precisely, the sustainable investment objective of the fund is to invest in economic activities that contribute to a Sustainable Future, addressing some of the global challenges in order to achieve sustainable growth.

Investments: The Sub-Fund invests mainly in a broad range of securities from around the world and which contribute to a sustainable future, as measured according to the environmental, social and governance challenges indicators. This may include (i) euro denominated investment grade bonds, across the full range of maturities, issued by governments of OECD countries or supranational entities and or corporate entities. At least 10% of the sub-fund's assets are invested in green, social and sustainable bonds, aiming to finance energy transition and social progress and that meet the criteria and guidelines of the Green Bond, Social Bonds and Sustainable Bonds Principles as published by the ICMA; (ii) inflation linked bonds; (iii) up to 10% of the sub-fund's assets in contingent convertible bonds and up to 40% of the sub-fund's assets in equities.

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on equities).

Benchmark : The Sub-Fund is actively managed and uses the MSCI Daily Net Total Return World Euro Index (30%) Bloomberg EuroAgg Total Return Index Value Unhedged EUR Index (70%) Index a posteriori as an indicator for assessing the Sub-Fund's performance and, as regards the performance fee, as a benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such Benchmark restraining portfolio construction.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investing" of the Prospectus. The sustainable investment objective is achieved by investing in companies and issuers, on both global equity and fixed income markets, which contribute to creating a positive long-term environmental or social contribution to a Sustainable Future. The selection of the securities results from a traditional financial analysis coupled with an extra-financial analysis aiming to assess the actual contribution and commitment to a sustainable future. The Sub-Fund applies supplemental and specific exclusion criteria on companies and public issuers on the basis of controversial activities and controversial behaviour. The Sub-Fund's investable universe (as represented by the Benchmark) is reduced by a minimum of 20% due to exclusion of securities with a lower ESG rating.

Risk & Reward Profile (Source: Fund Admin)

Risk Indicator (Source : Fund Admin)

Lower Risk

Higher Risk

The SRI represents the risk and return profile as presented in the Key Information Document (KID). The lowest category does not imply that there is no risk. The SRI is not guaranteed and may change over time. The risk indicator assumes you keep the product for 4 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely impact our capacity to pay you. Additional risks: Market liquidity risk could amplify the variation of product performances. This product does not include any protection from future market performance so you could lose some or all of your investment. Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Amundi Funds prospectus.

DIVERSIFIED ■

SRI Terminology

Socially Responsible Investment (SRI)

The SRI expresses sustainable development objectives in investment decisions by adding Environmental, Social and Governance (ESG) criteria in addition to the traditional financial criteria.

SRI thus aims to balance economic performance and social and environmental impact by financing companies and public entities which contribute to sustainable development whatever their business sector. By influencing the governance and behaviour of stakeholders, SRI promotes a responsible economy.

ESG criteria

The criteria are extra-financial criteria used to assess the Environmental, Social and Governance practices of companies, states or local authorities:

"E" for Environment (energy and gas consumption levels, water and waste management, etc.).

"S" for Social/Society (respect for human rights, health and safety in the workplace, etc.).

"G" for Governance (independence of board of directors, respect for shareholders' rights, etc.).

ESG rating scale

The decision of the investor to invest in the promoted fund should take into account all the characteristics or objectives of the fund.

DIVERSIFIED ■

Focus on Environmental, Social and Governance key performance indicators

In addition to the overall ESG assessment of the portfolio and the E, S and G dimensions, the manager uses impact indicators to assess the ESG quality of his portfolio. Four representative indicators of Environment, Social, Human Rights and Governance have been identified. The manager's minimum objective is to deliver a quality score higher than that of the index on at least two of the indicators.

ENVIRONMENT: Carbon intensity

GHG intensity of investee companies – tCO₂eq/€m de revenus
Source : Trucost

Coverage rate (Portfolio/Benchmark) 99.58% 98.56%

Human Rights - Lack of a human rights policy

Share of investments in entities without a human rights policy

Coverage rate (Portfolio/Benchmark) 100% 100%

GOUVERNANCE : ESG factors integration in the company's strategy

Coverage rate (Portfolio/Benchmark) 100% 97.35%

SOCIAL : Socially Responsible Supply Chain

Coverage rate (Portfolio/Benchmark) 69.32% 74.30%

DIVERSIFIED ■

Sources and definitions

Carbon Intensity: PAI 3 measures carbon emissions expressed in million euros (€ million) of revenue. The Greenhouse Gas intensity of the relevant portfolio is determined by calculating the portfolio weighted average of the total greenhouse gas emissions intensity per million euros of sales of the companies in the portfolio (t/EUR million sales).

Amundi relies on the data provider S&P-Trucost, whose methodology is based on the Greenhouse Gas Protocol:

Scope 1: Direct emissions generated by resources owned or controlled by the company.

Scope 2: Indirect emissions generated by the purchase or production of electricity, steam, or heat.

Scope 3: All other indirect emissions, both upstream and downstream of the value chain. For data robustness reasons, we have chosen to use emissions from upstream Scope 3 activities.

Lack of a human rights policy: The share of investments in entities without a human rights policy in the relevant portfolio is assessed by calculating the sum of the weights of these companies in the relevant portfolio that has not disclosed a human rights policy. The PAI indicator uses the "relevant" approach, meaning that the denominator is determined by considering the relevant portfolio. The weights of the portfolio are adjusted to account for incomplete data coverage.

ESG Corporate Strategy: This indicator takes into consideration the companies integrating environmental, social and governance factors into their strategy and operating procedures of their management bodies. Data source : Refinitiv.

Supply Chain - Social: This indicator takes into consideration the interests of the company's stakeholders, i.e. customers and suppliers. Behave responsibly to suppliers, adopting a selection process that considers ESG issues. Data source : Amundi.
