

## Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

### AMUNDI FUNDS GLOBAL INFLATION BOND - R EUR MD A Sub-Fund of the SICAV AMUNDI FUNDS

ISIN code: (D) LU1049753640

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

#### Objectives and Investment Policy

To achieve a combination of income and capital growth (total return). Specifically, the Sub-Fund seeks to outperform (after applicable fees) the Bloomberg Barclays WGILB All Markets Euro Hedged index over the recommended holding period.

The Sub-Fund invests at least 50% of net assets in investment-grade inflation-linked bonds that are denominated in the currency of any of OECD or European Union member state. Non-euro investments are aimed to be hedged against the euro.

The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates, foreign exchange, and inflation).

The Sub-Fund may use credit derivatives (up to 40% of net assets).

The Sub-Fund does not aim to replicate the reference indicator and may therefore significantly deviate from it.

The investment team analyses interest rates and economic trends (top-down) to build its expectations for real interest rates and inflation rates. The investment team then uses both technical and fundamental analysis to select issuers and securities (bottom-up) and implement arbitrages between indexed and fixed-rate bonds.

The distribution share pays dividends monthly.

The minimum recommended holding term is 3 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

#### Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from inflation-linked bonds in which it is invested.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.
- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.

## Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
