AMUNDI FUNDS EUROPEAN EQUITY GREEN IMPACT - A EUR A Sub-Fund of the SICAV AMUNDI FUNDS

ISIN code: (A) LU1579337525

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

To achieve capital growth the recommended holding period. Specifically, the Sub-Fund invests as a feeder fund in Amundi Valeurs Durables (master fund).

The Sub-Fund invests at least 85% of net assets in units of the master fund (OR class). The Sub-Fund may invest up to 15% in deposits and derivatives that are used for hedging only.

The master fund invests at least 75% of net assets in equities of companies that are headquartered, or do substantial business, in Europe, that derive a large portion of revenue from environmental activities, and that perform well on extra-financial ESG criteria (environment, social and governance).

The master fund expects to have an equity exposure of between 75% and 120%.

The master fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit and equities).

The master fund's investment team analyses about 100 European equities applying a SRI (socially responsible investment) filter, among which they select companies that are active in environmental activities well evaluated on ESG (environment, social and governance) criteria and exclude companies which produce energy from fossil fuels or nuclear power or are involved in the production or sale of controversial weapons. The investment team uses an optimisation process to achieve the desired diversification, number of securities, risk profile and liquidity.

The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 5 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in European equities.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

The respective dealing cut-off time for the Sub-Fund and the Master Fund are set so that valid subscription or redemption orders for shares of the Sub-Fund are placed before the cut-off time of the Master Fund so as to be processed at a same dealing day. Further details are provided in the prospectus of the Master Fund.

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.
- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.

The use of complex products such as financial derivative instruments might increase market movements in your portfolio.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
